

# Una Actualización del Systema Vireo ETD

MORELIA • Reunión de Primavera

21 de abril 2010

# Resumen

- Vista general de Vireo
  - Sistema de Sumisión de Estudiante
  - System de Gestión
- Depósito Federado
- El uso de Vireo en Instituciones de Tejas de aprendizaje más alto

Sobre el Systema de Vireo ETD

# VISTA GENERAL

# Que es Vireo?

- Sumisión Electrónica de Tesis y Disertación y Sistema de Gestión
  - Proporcionado por [Texas Digital Library \(TDL\)](#)
  - ETD es depositado en el depósito federado y depósito local
  - Interfaz de **submission de estudiante**
  - **Systema experto de la gestión** para cursos de personal de posgraduados
    - Preve revisión y aprobación locales de manuscritos

# Por Qué Cambiar a Vireo?

- Proporciona acceso abierto a manuscritos (ningún costo a estudiantes, investigable por Google)
- Opciones capaces de ser personalizadas y ver dentro del systema de gestión
- Fácil de utilizar forma de sumisión de estudiante
- Facil de rastrear el estado de un ETD para estudiante como para administradores

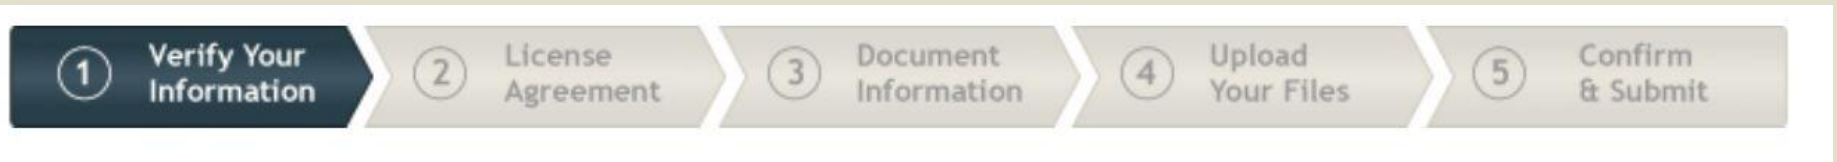

Sumisión en línea, intuitiva y fácil de ETDs

# SUMISIÓN DE ESTUDIANTE

# Systema de Sumisión de Estudiante

- Sencillo y intuitivo – estudiantes hacen el uso probable sólo una vez
- Capacidad de autofill para alguna información personal (si usa SHIBBOLETH para autenticación distribuida)
- Permite prohibiciones en cualquier documento
- Permite que ETDs vayan a UMI publicación de disertaciones

# Sumisión de Estudiante: 5-Pasos de Proceso

1. Verifique su Información Personal
2. Acepte la licencia
3. Entre información sobre su documento
4. Cargue documentos principales y archivos suplementarios
5. Confirme su información y complete su sumision

# Sumisión de Estudiante: La Sumisión Completa

## Submittal Complete

---

Please alert your departmental office that you have completed the Thesis and Dissertation submission process.

[View submission status](#)

Una vez que sumisión esta completa, el estudiante recibe instrucciones personalizadas para otras acciones que él o ella deben llevar fuera del systema de Vireo

Interfaz de Viero para el personal de la Oficina de Thesis

# GESTIÓN DE ETD

# Sistema de la Gestión para Oficinas del Departamento de Graduados y Bibliotecarios

- Interfaz flexible
- Proceso de revisión del manuscrito que rastrea
- Personaliza la lista de documentos y filtra personalizados para usuarios individuales
- Exporte funcionalidad
- Maneja comunicación con estudiantes y facultad

# Interfaz de Gestión: Liste ETDs disponibles

Usuarios de administración pueden manejar la lista utilizando filtros savables

# Ajustes de Configuración

- Crear instrucciones personalizadas de sumisión
- Personalizar plantillas de e-mail y variables
- Personalizar menús de drop-down utilizados en el proceso de sumisión del estudiante
- Controle apariencia y filtrar opción dentro de la interfaz de usuario

Dos Niveles de Acceso: Usuario Administrativo regular y Director (ó Superusuario)

## Self-esteem and life satisfaction of aged individuals with and without access to computer training

[Show full item record](#)

**Title:** Self-esteem and life satisfaction of aged individuals with and without access to computer training

**Author:** Brown, Cindy Ann

**Abstract:** Research indicates that today's aging population may obtain various benefits from using computer technology. These benefits include increased self-esteem, decreased depression, increased life satisfaction, and decreased loneliness; however, few of these studies have employed quantitative measures to quantify these results. This study focused on the possible benefits related to self-esteem and life satisfaction of older computer users. Participants belonged to either a control group or an experimental group. The experimental group participated in an eight-week computer training course. The control group did not receive computer training. All participants were administered the Rosenberg Self-Esteem Scale and the Life Satisfaction Index-Z at the beginning and the end of the study. The researcher hypothesized that participants who received computer training would have higher levels of self-esteem and life satisfaction when compared with the group of participants who did not receive computer training. Results of the study indicated life satisfaction for both the control and experimental group rose slightly, but was not statistically significant. Therefore it is impossible to say that the SeniorNet computer training course helped to increase aged individuals' life satisfaction. These results may indicate that any sort of meaningful activity (either participating in a computer class or involvement in social activities at a senior community center) may increase an individuals' life satisfaction. The results also indicated that self-esteem for the experimental group rose slightly after receiving computer training; however, these results were not statistically significant. It could be possible that the sense of mastery over a subject may have increased the participant's self-esteem, as stated in the study by Hoot and Hayslip (1983). Further research needs to be conducted on this population, and such research may enhance an aging population's outlook on life and themselves.

**Publisher:** Texas A&M University

**Subject:** self-esteem of senior citizens  
life-satisfaction of senior citizens; computer training and senior citizens

**URI:** <http://hdl.handle.net/1969.1/1367>

Cosechar de OAI-ORE es manejado en DSpace

- Puesto en forma simple
- Puede cosechar metadata, la informacion en el bitstream y/o el bitstream mismos
- Registra los datos a cosechar

# Depósito Federado: Todo el ETDs es Curated

The screenshot shows the search interface of the Texas Digital Library. On the left, there are navigation links for 'Research Wikis', 'Peer-Reviewed Journals', and 'Repositories'. The main search area includes filters for 'Words in text' (set to 'computer'), 'Author', 'Committee Chair', 'Degree Level' (set to 'All'), 'Granting Institution' (with a dropdown menu showing 'All', 'Texas A&M University', 'Texas State University at San Marcos', 'Texas Tech University', and 'University of Texas at Austin'), and 'Year' (with a dropdown menu showing 'All', '2010', '2009', and '2008'). A 'Search' button is located below the filters.

Below the search filters, it states: 'Your query "(("computer"))" produced 3554 result(s)'. A pagination bar shows 'Now showing items 1-10 of 3554' and 'Next Page'.

The search results are titled 'Search Results for Community: Theses and Dissertations'. Three results are visible:

- Teaching styles and computer use in family and consumer sciences teacher education programs: a survey of university faculty in Texas Koukel, Sonja D., Doctor of Philosophy (Texas Tech University, 2005-12-02) 
- Efficient model checking for timing diagrams Amla, Nina, Doctor of Philosophy (The University of Texas at Austin, 2008-08-28) 
- Self-esteem and life satisfaction of aged individuals with and without access to computer training Brown, Cindy Ann, 1974-, Ph. D. (Texas A&M University, December 2004) 

On the right side of the interface, there is a 'REPOSITORY' section with a 'Login' button and a 'SEARCH THE REPOSITORY' section with a search box and a 'Go' button. Below that are radio buttons for 'Search the Repository' (selected), 'This Collection', and 'Advanced Search'. There is also a 'BROWSE' section with links for 'Entire Repository', 'Communities & Collections', 'By Issue Date', 'Authors', 'Titles', and 'Subjects'. Under 'This Community', there are links for 'By Issue Date', 'Authors', 'Titles', and 'Subjects'. An arrow points from the 'Subjects' link under 'This Community' to the first search result.

El TDL de Deposito Federado reúne ETDs de Universidades de todo el estado.

- Todos los ETDs aparecen en uno, en una locacion invesigable
- Metadata cosechó automaticamente de depósitos de miembro
- Bitstream se queda en la institución de casa
- Institución de casa identificada dentro del deposito federado

# Depósito Federado: Todos los ETDs son buscados con Google

The screenshot shows a PDF document titled "SELF-ESTEEM AND LIFE SATISFACTION OF AGED INDIVIDUALS WITH AND WITHOUT ACCESS TO COMPUTER TRAINING" by Cindy Ann Brown. The document is a dissertation submitted to the Office of Graduate Studies of Texas A&M University in partial fulfillment of the requirements for the degree of Doctor of Philosophy. The date is December 2004.

Desarrollo y Apoyo

# VIREO Y EL TDL

# Vireo y La Biblioteca Digital de Texas

- Vireo fue desarrollado por la [Texas Digital Library](#), originalmente para uso de sus organizaciones de miembro.
- Vireo está en producción en Texas A&M University, la University of Texas en Austin, y Texas Tech University, con sitios probatorios en varias escuelas miembros de TDL (desde March 2010).
- Una vez que sea probado y desplegado extensamente dentro del estado de Texas, todo el código, documentación, y instrucción de materia será hecho públicamente disponible bajo una licencia de fuente-abierta.

# Vireo y el TDL: Vireo 1.0.1

- Nueva Liberación en Marzo 2010
- Nuevas capacidades y características incluyen:
  - Publicar automatizado a un depósito institucional (via [SWORD](#))
  - Cosechar automatizado de ETDs al TDL Federó a ETD Depósito (via [OAI-ORE](#))
  - Conformidad llena con estándares de metadata
  - Usuarios comunican aumentos en la interfaz de gestión
  - Instrucciones completas de instalación seran enviados con nueva versión

# Vireo y el TDL: Información Adicional

Para mas información sobre Vireo:

- Vaya al TDL Wiki: <http://wikis.tdl.org/tdl/Vireo>
