

# Advanced Computing Services for Latin America and the Caribbean

SCALAC is a consortium of highperformance and scientific computing centers and researchers from several Latin American countries. SCALAC provides services in infrastructure, platforms, applications, training and consulting for research, development and innovation using advanced information technologies.

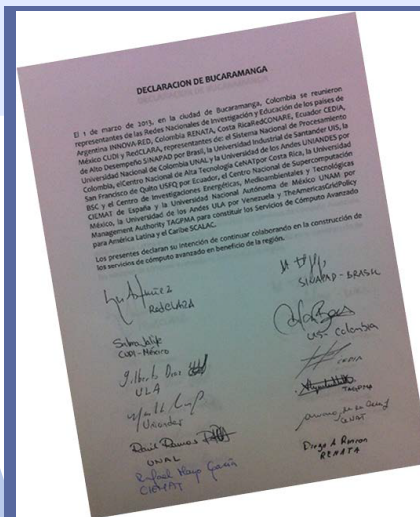

## Current Members:

Argentina: *UBA*  
 Brazil: *SINAPAD, UFRGS*  
 Chile: *NLHPC, UFSM*  
 Colombia: *SC3UIS, UniAndes*  
 Costa Rica: *CNCA, UCR*  
 Ecuador: *CEDIA*  
 México: *CUDI, UNAM, CINVESTAV-IPN (ABACUS)*  
 Uruguay: *UDR*  
 Venezuela: *UCV*

## Contact:

Salma Jalife, Financial and Management  
[salmajalife@cudi.edu.mx](mailto:salmajalife@cudi.edu.mx)  
 Alvaro de la Ossa, Communications  
[alvaro.delaossa@ucr.ac.cr](mailto:alvaro.delaossa@ucr.ac.cr)  
 Carlos J. Barrios, General Coordinator  
[cbarrios@uis.edu.co](mailto:cbarrios@uis.edu.co)

Based on previous experiences EELA, EELA-2 and GISELA, SCALAC was launched in March 2013 with the support of RedCLARA (Latin American Cooperation of Advanced Networks), BSC-CSN (Barcelona Supercomputing Center) and CIEMAT (Energy, Environmental and Technological Research Center) from Spain. A cooperation agreement was signed by its members.
